

Finding your Serial Number

Applies to all active products

Option #1

Your Product Serial Number is printed directly on your Hardware Protection Key (also known as the USB dongle) and is typically the easiest way to locate your unique Product Serial Number. The number will be preceded by "S/N".

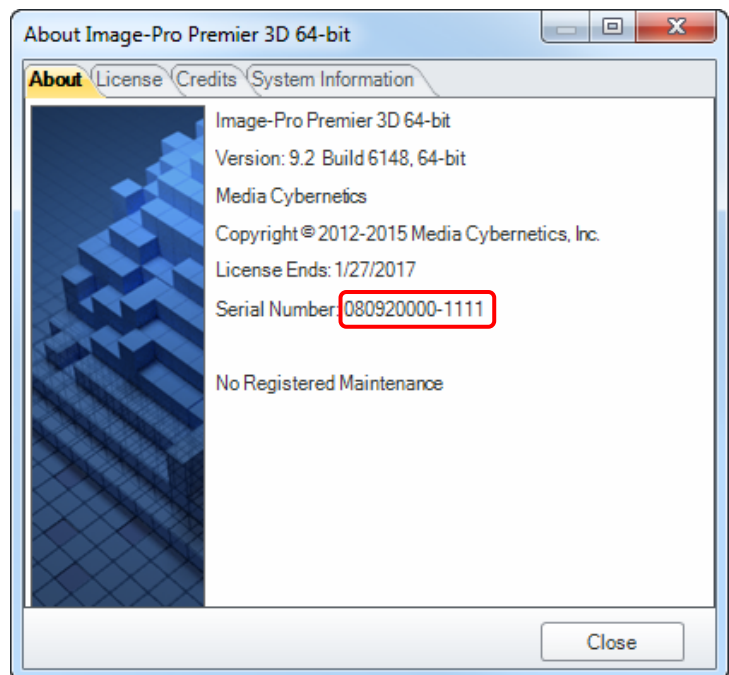

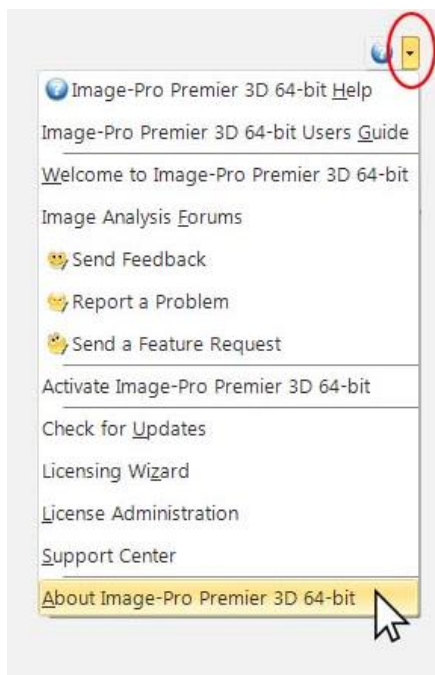

Product	Product Code
Image-Pro Premier 3D	Starts with "08"
Image-Pro Premier	Starts with "05" or "01"
Image-Pro Insight	Starts with "03"
Image-Pro Plus/Analyzer	Starts with "41" or "15"
AutoQuant	Starts with "AQX" or "AQI"

Option #2

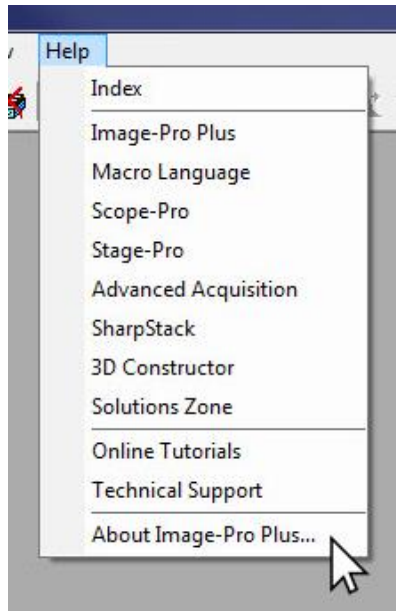

Your Product Serial Number can also be found on the **About** dialog box in the software product. Access the **About** dialog box in any Media Cybernetics product by selecting “About <Product Name>” from the Help Menu from inside of the product.

For Products: Image-Pro Premier 3D
Image-Pro Premier
Image-Pro Insight

NOTE: The dialog is accessed using the **small arrow** to the right of the Help button.

For Products: Image-Pro Plus
Image-Pro Analyzer

For Products: AutoQuant
